2. On 14 July, [REDACTED] at a conference on standardization of Russian transliteration. The meeting was called by the American Association for the Advancement of Science under National Science Foundation sponsorship. About 30 representatives from government and private institutions discussed the problems inherent in the principal transliteration systems now in use. The majority, with Board of Geographic Names dissenting, favored adoption of the British Standards Institution system. A second informal meeting was held on 24 July attended by members of the Board of Geographic Names, Library of Congress, National Federation of Scientific Abstracting and Indexing Services, and NSF. It was agreed that the BGN would seek a compromise with the British Standards Institution.
